

The success of the Rapidline Furniture range has been built on offering quality Commercial Office product delivered quickly, in a limited range of finishes.

We can now provide an extended range of fabric choices for our screen ranges, and a selection of our seating product.

These products are still available in the existing Express fabrics, but can also be locally upholstered in our House fabric range, or any Australian commercial fabric.

There is a manufacturing lead time involved in upholstering these products in Australia, so contact your local Customer Service team for up to date delivery information.
